How it works

1. PRICING STRATEGY

To encourage as much interest as possible, your experienced Auction Specialist will discuss a pricing strategy for your property with you. This will include a Reserve Price, the minimum price you're willing to accept for your property's sale and a Starting Price. These are designed to help drive interest and keep you in control.

3. PRE-AUCTION MARKETING

We begin to advertise your property whilst the Auction Pack is being prepared, generating as much exposure, interest and as many viewings as possible.

The more activity and interest in your property, the more likely there is to be competitive bidding which can drive up your property's final selling price!

4. READY TO GO!

Once the Auction Pack is complete, your Auction Specialist will discuss the best timeframe with you and set out your property's auction start and end date, and then, bidding can begin.

5. BIDDING

Interested parties who have registered can bid on your property. Typically, the auction will end when the auction timer runs out. The sale will only be agreed if a bid is received on or above your Reserve Price after the auction has ended.

If a bidder places a bid within the last two minutes, the timer will reset to two minutes to ensure everyone has a chance to place their bid, and to encourage the best possible selling price for your property.

2. GETTING PREPARED

Your Estate Agent will prepare the property details (including photographs and EPC), meanwhile, the iamsold team will complete ID Checks with you, and the Auction Pack will be prepared.

- ID verification is quick and easy and is a legal requirement for selling property.
- The Auction Pack provides buyers all the details they'll need to bid on your property. Our in-house specialist Auction Conveyancing team, Medway Law, can provide this and you only pay when your property sells.
- You'll also want to consider who will undertake your Conveyancing. It's recommended that you instruct a Solicitor before the auction starts.
- For leasehold properties, you may need to provide a Management Pack. This is available from the Freeholder or management agency, and they will be able to confirm the cost.
- You'll need to complete your property information questionnaire to avoid any delays.

6. YOUR PROPERTY HAS SOLD

Depending on the method of auction you've chosen, the buyer will have either 28 or 56 days¹ from receipt of a draft contract to complete the purchase. In both cases, the buyer will have paid a Reservation Fee to reserve the property, so they're fully committed to the purchase.

7. NEXT STEPS

Our expert Completions Team will help to take the sale through to the final stage of the process, keeping you updated every step of the way until your completion is finalised.
